

Francis Blondin's motivation letter to represent the Americas at the IAM International Board
November 18, 2018

Dear IAM members and organizers,

I would like to volunteer to become an official IAM regional representative for the Americas. I am eager to promote memory techniques and memory competitions to a larger public. I would also like to take part in internal discussions concerning competition formats and other important subjects. I think I am an intelligent, passionate, honest and reasonable person who has a lot to contribute. For example if possible I would like to personally organize the second IAM Canadian Open Memory Championship in Montreal in early 2020. You can judge whether or not I am qualified by reading my accompanying bio.

I would also like to add that I want this position to be held by the most qualified candidate possible. If at some point in the future an obviously more competent and hardworking person volunteer for the job, I will gladly promote his or her candidacy.

Sincerely,

Francis Blondin
