

Tansel Ali

Hi, I'm Tansel from Australia. I'm a 4 x Australian Memory Champion best known for memorising 2 Yellow Pages phone books in only 24 days.

I have been involved in memory sports for 16 years. During that time I have been training and teaching memory techniques to people all around the world as well as develop other memory experts and athletes to have a positive contribution in society. I'm an international bestselling author of three memory books and coach, speak, mentor and run memory/personal development events for a living.

I want to keep contributing to the memory community by serving in the IAM Board as a representative of Australia.
